

## GT GOLDEN ZASKAR

### FRAME

Light, stiff and fast-as-hell are three good adjectives to use when describing GT's iconic hardtail. It all starts with the monocoque carbon fiber frame which, you guessed it, is as gold as gold gets.

### TRIPLE TRIANGLE

The triangle is the strongest shape in geometry. So we gave the Golden Bike three of 'em. The results? Featherweight strength and awe-inspiring rigidity.

### FORK

Fox 32 RL with 100mm of travel, rebound adjust and remote lock out. It's Fox's gold standard fork paired with GT's gold standard hardtail.

### DRIVETRAIN

A bike this fast demands the best components on the market. And the Golden Bike gets what the Golden Bike wants. In this case, a full XTR drivetrain with a Shadow rear derailleur.
